OBJECTIVE:

- I am currently a nursing student at Kent State University-Stark planning to pursue a hardworking nursing position and to find a future career in registered nursing.

COMPETENCIES & STRENGTHS:

- Includes therapeutic communication, team player, reliable, excellent listener, patient educator, health promotion, critical thinker, ability to solve problems, strong attention to detail, prioritization and coordination of patient care tasks in a timely matter, solid understanding of physiology and disease process, collaborative communication with other healthcare professionals; initiation and maintenance of IV therapy, nursing assessment, nursing diagnoses and interventions, and the ambition to accomplish set goals.

EDUCATION:

<u>Kent State-Stark University</u>	Majoring in Nursing	GPA: 3.7	Expected Graduation: May 2012
<u>Perry High School</u>	Graduate of 2008	GPA: 3.9	Massillon, OH

EMPLOYMENT:

Daycare Worker,	Perry Shining Stars, Massillon, OH	September 2009-August 2011
Sales Associate,	Charlotte Russe, Canton, OH	October 2008-August 2009
Clerk,	Meat Packers Outlet, Massillon, OH	June 2008- August 2008
Clerical Assistant,	Absolute Health Services, North Canton, OH	September 2007-May 2008

EXPERIENCE:

- Aultman Hospital:* Applied the nursing process to the care of infants, children, and adolescents. Practiced family-centered care. Demonstrated appropriate teaching techniques. Cared for women/infants during and after the birthing process.
- Preceptorship completed in Aultman MICU Spring 2012:* Learned how to effectively provide quality competent care to the critically ill client. Used critical thinking skills to correlate nursing diagnoses and interventions specific to client's pathophysiological diseases and their needs. Demonstrated effective communication skills with other health care team members. Improved core skills learned in the past and was able to practice new skills within the medical intensive care unit for 120 hours.
- Mercy Medical Center:* Practiced safe medication administration, infection control, and therapeutic communications with adults and geriatric clients. Developed clinical competencies in physical assessment, evidence-based interventions, patient teaching, and discharge planning. Applied the nursing process to care for clients with complex disease processes. Coordinated care between multiple patients. Developed critical thinking skills.

CERTIFICATIONS & TRAINING:

BLS (CPR), HIPAA Training, First Aid & Communicable Diseases
